

ATTENTION ALL DOG OWNERS

Los Angeles County is currently experiencing an **outbreak** of Canine Influenza H3N2 (CIV H3N2).

What is CIV H3N2?

CIV H3N2 is a vaccine preventable respiratory disease that can easily be transmitted from dog to dog.

If your dog is experiencing symptoms such as a cough or fever, **do not** take your dog inside the clinic until you first consult with a member of the veterinary care team.
